

Brief Overview

After three years of successful Co2mmunity cooperation we will summarize our achievements and talk about the current status of community energy (CE) in the Baltic Sea Region. We will continue our cooperation in the follow-up project „Energize Community“, implementing pilot projects in the BSR, empowering the people producing and consuming their own renewable energy.

Reasons to Attend?

1. Get to know practical tools and guidelines to foster CE projects in your region
2. Learn about how to embed CE in renewable energy policies
3. Exchange your knowledge and experience with researchers, technical experts, policy decision makers, community energy stakeholders and citizens being prosumers
4. Strengthen your transnational cooperation in the EU

Topics of Interest

We will state the current situation of CE in the BSR and visualize our RENCOP model to establish CE projects by real-life examples.

The application of our roadmap, country specific handbooks, and tools for fostering CE projects will be illustrated. We will address our policy recommendations and put Community Energy as an important pillar of the EU Green Deal in the focus of our panel discussion.

Who will join?

8. September 2020:
This final conference targets all community energy stakeholders: Citizens, European & national policy makers and governmental institutions, actors and organisations active in the development of the CE sector.

9. September 2020:
This day is reserved as project internal meeting for project partners.
